Prism reserves the right to supplement this list of exhibits for impeachment, cross-examination or rebuttal purposes, or to the extent that Sprint produces or identifies additional documents or raises additional issues or defenses in this action. The inclusion of a document on Prism's list of trial exhibits should not be deemed a waiver of potential objections to the use of the document by Sprint, depending on the nature of

such use or a failure to lay proper foundation, or of any motions in limine. Should certain documents be excluded *in limine*, Prism will not offer those exhibits at trial.

**Sprint's Objections:** Sprint objects generally to each of Plaintiff Prism's initial and supplemental trial exhibit designations identified below. An objection key is also provided below.

In such cases, Sprint objects under Rule 105 to use of any such documents without a proper limiting instruction to the jury informing the jury of such limitation.

Sprint generally objects to each duplicate copy of any exhibits under Fed. R. Evid. 403 for being cumulative, and incorporates all objections raised with respect to one such copy of the same document with respect to all copies of the said duplicate exhibits. Sprint generally incorporates by reference each and every objection set forth in any exhibit constituting a written discovery response of any party as if the objection is restated herein. Sprint objects to undesignated portions of deposition transcripts and any exhibits cited within those undesignated portions, for the deposition transcripts set forth on the exhibit list. Sprint generally objects to any use of any exhibit not set forth on this list in compliance with the Local Rules governing the pre-trial order.

To the extent Sprint objects to the proposed evidence in the attached chart as "402," the objection falls under at least Federal Rules of Evidence 402. To the extent Sprint objects to the proposed evidence in the chart below as "403," the objection falls under

at least Federal Rule of Evidence 403. To the extent Sprint objects to the proposed evidence in the chart below as “404,” the objection falls under at least Federal Rule of Evidence 404. To the extent Sprint objects to the proposed evidence in the chart below as “1002,” the objection falls under at least Federal Rules of Evidence 1002. To the extent Sprint objects to the proposed evidence in the chart below as “802,” Sprint objects to the evidence as hearsay under at least one or more of sections 801-807 of the Federal Rules of Evidence. To the extent Sprint objects to documents in the chart below as “901,” Sprint object to the authentication of the proposed evidence under at least Federal Rules of Evidence 901. To the extent Sprint object to documents in the chart below as “104a” or “602,” Sprint objects to the lack of foundation for the proposed evidence under at least Federal Rules of Evidence 104 and 602. To the extent Sprint objects to documents in the attached chart as “NP,” Sprint objects to any use of the document at trial because it was not produced or made available to Sprint by Prism within the discovery period as requested by Sprint and/or as required by the Federal Rules, Local Rules or the Court’s Rules, the Court’s Scheduling Order(s).

**DEFENDANT SPRINT SPECTRUM L.P. D/B/A SPRINT PCS's TRIAL EXHIBIT LIST**

Sprint Spectrum L.P.'s d/b/a Sprint PCS ("Sprint") trial exhibits are listed below, along with Prism Technologies LLC's ("Prism") objections.

**Sprint's Trial Exhibit List:** Pursuant to the Court's February 23, 2015 Order (Doc. No. 302, 307) and the agreement of the parties, Defendant Sprint hereby provides its First and Second Supplemental Trial Exhibit Lists. Sprint's identification of exhibits is based on its assessment of the case at this time, without the benefit of various Court rulings, such as rulings on an extension of the trial date in this case as well as rulings on *Daubert*, *in limine*, and summary judgment motions. In addition, Sprint has not yet served its rebuttal damages report in this case. Sprint also does not know the full nature and/or scope of the testimony and evidence that Plaintiff Prism intends to present to support its claims and defenses. Accordingly, Sprint reserves the right to modify, amend and/or

supplement these disclosures based on case developments, including but not limited to the right to present at trial (1) additional documents identified in the as-yet-to-be-served rebuttal report of Sprint's damages expert, (2) additional documents identified on the exhibit lists provided by Prism, (3) documents necessary to authenticate or lay the foundation for the introduction of testimony or documents to which Prism objects, (4) documents necessary for impeachment, and 5) demonstrative exhibits to be exchanged by the parties. Sprint also reserves the right to supplement this exhibit list to include any discovery AT&T or any third party produces in this case and any exhibits and demonstratives used in the *Prism v. AT&T Mobility LLC* trial, Case No. 8:12CV122 (D. Neb.). In addition, Sprint reserves the right to use any publication, including any patents, listed on the curriculum vitae's of Dr. David Lyon, Mr. John Minor, and Mr. James Malackowski. Sprint further notes that its identification of any exhibit herein is not an admission that the exhibit would be admissible if proffered by Prism

**Prism's Objections:** Plaintiff Prism asserts the following objections to the list of trial exhibits served by defendant Sprint. Prism reserves the right to object to any exhibit hereafter identified by Sprint. Prism reserves the right to object to any previously identified exhibit not provided or offered for inspection to Prism. Prism further reserves all rights and objections to any exhibit based upon potential motions *in limine*.

Prism relies on the following abbreviations in setting forth its objections:

**DEFENDANT SPRINT SPECTRUM L.P.'S WITNESS LIST**

Pursuant to the Court's February 23, 2015 Order (Doc. No. 302, 307), Defendant Sprint Spectrum L.P. ("Sprint") identifies the following trial witnesses that it may call live or by deposition. Sprint's identification of witnesses is based on its assessment of the case at this time, without the benefit of various Court rulings, such as rulings on *Daubert*, *in limine*, and summary judgment motions. In addition, some witnesses have not yet been deposed. Sprint also does not know the nature and/or scope of the testimony and evidence that Prism Technologies LLC ("Prism") intends to present to support its claims and defenses. Accordingly, Sprint reserves the right to modify, amend and/or supplement these disclosures based on case developments, including but not limited to the right to: (1) not call some or all of the witnesses identified below; (2) call live or by deposition at trial any witness identified on the witness lists provided by Prism, as well as any witnesses necessary to authenticate or lay the foundation for the introduction of documents to which Prism objects (including but not limited to custodians of records); (3) disclose additional witnesses to testify live or by deposition; and/or (4) introduce deposition testimony as impeachment evidence. Sprint further notes that its identification of any

witness herein is not an admission that the witness's testimony would be admissible if proffered by Prism. Sprint reserves the right to cross-examine any witness Prism calls to testify, regardless of whether they are disclosed on this witness list, including without limitation by counter-designation of proffered deposition testimony.
